## About the Conference

On behalf of Foster Research Organizing Committee, we are delighted to preside over a three-day **"Global Research Conference on Laser, Optics and Photonics" (EGRCLP2024)** focusing on the theme "Ameliorating and Unveiling the insights in Lasers, Optics and Photonic Technologies" which will be taking place during **August 26-28, 2024 at Kuala Lumpur, Malaysia.**

EGRCLP2024 conference holds a special promise to discuss future discoveries. The colossal and enthusiastic presence of young and brilliant researchers, scientists, academicians, opticians, laser experts, healthcare professionals, business delegates, and exceptional student communities adds to the excitement of the three-day congress which provides insight into the latest research and cutting-edge innovations. Over the past three-quarter century, the fields of lasers, optics and photonics have undergone a quantum leap. We have seen tremendous technological progress in photonics for the telecom industries, aviation, aerospace and medical communities. Information, intelligence and data are transferred from one point to another more quickly and precisely than ever thought and it is possible due to these recent advancements. Lasers, optics and photonics are being used in world-wide for 1000s of applications.

We are fortunate to be among the pioneers of this exciting and rapidly changing field. The technological achievements are the result of solid engineering, dedication, and innovation.

In the upcoming year, the organizers have assembled a series of plenary, keynote and invited presentations from distinguished members of the international will share with us their world class scientific R&D.

We are looking forward to your presentation among these inventors at Kuala Lumpur, Malaysia.

Sincerely,

**EGRCLP2024 Scientific Organizing Committee.**
